

## **MAGA'S 'America First' Ideology:**

It claims religious justification for its methods and blames immigrants, educators, sexual "deviants," other religions, "socialists," journalists, and too-meeek systems of justice for the supposed downfall of a "legitimate" national culture and citizenry. It winks at violence committed in the movement's name, celebrating those who engage in violence as supposed martyrs and proclaiming that their prosecutions are illegitimate. And it lies with abandon, seeking to dominate the national culture with hoaxes that benefit it rather than truths that do not.
